HOW TO create Bar Charts for custom selected areas
Create Bar Charts for custom selected areas from “Create Custom Geography” tab

Select scale of data:
"City of Toronto" or "Central LHIN"

Select Create Custom Geography tab

Select Neighbourhood areas:
Click-SELECT (or deselect) one or more Neighbourhood areas for which you would like to view data

SUBMIT your Neighbourhood SELECTION
SELECT one or more
DATA TOPIC CATEGORIES
from the drop-down list below

OPTION 1:
Select only Data in Chart Form

Select option
“View Data in Chart Form”
to view all available bar charts

SUBMIT REQUEST & See RESULTS Below

Select the button for the data topic for
which you want to create the bar charts of
available indicators for your chosen
neighbourhoods
**OPTION 2:**
Select Data Topics and view Bar Charts

Select "Emergency Department visits" and "Hospital Admissions" data topics

**SUBMIT REQUEST & See RESULTS Below**

---

**EMERGENCY DEPARTMENT VISITS data**

RESULT TABLE

Select the button for the data topic for which you want to create the bar charts of available indicators for your chosen neighbourhoods

---

**EMERGENCY DEPARTMENT VISITS**

---

**Population (denominator): Total Population 2016 (RPED) By Age Group and Sex (All ED visits)**

<table>
<thead>
<tr>
<th>Record</th>

</tbody>
</table>

**City of Toronto**

---

**Population (denominator): Total Population 2016 (RPED) By Age Group and Sex**

---

**Notes:**
- Reporting with caution if numerator contains 6-9 events OR denominator contains 6-9 events.
- Rates based on fewer than 20 events (numerator) or fewer than 30 (denominator) are likely to be unstable.

---

**Step 3.** SELECT one or more DATA TOPIC CATEGORIES from the drop-down list below.

**Step 4.** SUBMIT REQUEST & See RESULTS Below.
HOSPITAL ADMISSIONS data

RESULT TABLE

Select the button for the data topic for which you want to create the bar charts of available indicators for your chosen neighbourhoods

</tbody>
</table>

Notes:
1. Reporting with caution if numerator contains 8-16 events. OR denominator contains 6-30.
2. Rates based on fewer than 20 events (numerator) or fewer than 10 (denominator) are likely to be unstable.
3. Unlike (1): sex rates are suppressed since numerator is less or equal to 5, or due to missing completions data, or to disguise the calculation of the suppressed cell.
4. Information about definitions, data quality & limitations, and selection and preparation of variables, please go to About the Data.
