Ontario Community Health Profiles Partnership Website

The Ontario Community Health Profiles Partnership (OCHPP) website is a one-stop, freely accessible site producing high-quality health data since 2005

www.ontariohealthprofiles.ca

OCHPP

Ontario Community
Health Profiles Partnership

A partnership designed to facilitate access to information for health planning
with the overall goal of producing action to reduce health inequalities.

OCHPP Project Goals

- Build community capacity to use health information

- Build a deeper understanding of Ontario at a community-scale in order to appreciate the health needs specific to each area **e.g. vulnerable populations, rates of high disease, identifying priority neighbourhoods**

- Foster academic-hospital-community collaborations to improve population health

Health Profiles Partnership

A partnership designed to facilitate access to information for health planning with the overall goal of producing action to reduce health inequalities.

OCHPP Project Strategy

- Provide health profiles *of and for* Ontario communities with relevant and timely information in a user-friendly format on the website

- Provide technical support and mechanisms for communities to access data including custom requests for partners ***e.g. development of small area neighbourhoods for Central LHIN***

- Conduct workshops to foster access to and use of health data for decision-making, advocacy and policy, and to stimulate collaboration

What Information is on the OCHPP Website?

Community-level health indicators - this micro-data provides detailed statistics about populations living in communities by sex and relevant age-groups for each health indicator. We also provide information about how the community compares with the overall geography values and whether this difference is meaningful.

Ontario-wide health indicators - this macro-data provides an overview of how different communities within Ontario compare with each other with respect to specific health indicators.

Data are available as downloadable PDF, Excel tables & maps (PDF).

Geographies in Central East LHIN – Sub-Regions

Sub-Region
Nbhds (Durham & Toronto)
